Both posts are temporary, with contracts from 15/2/2018 to 31/12/2019, and are for 9 hours per week. Salary £9,985PA

About Firvale Community Hub

Firvale Community Hub provides a range of services to support the local community in Firvale and communities across Sheffield. Advice and specialist advice services form the cornerstone of our offer to the community. We seek to empower our clients and support them to improve their confidence and capability. We have well established partnerships and referral pathways including statutory services, community organisations, landlords and residents.

We aim for excellence. Our ambition is to be among the best services in the country, and one of the leading voluntary and community organisations in Sheffield.

The Migrant and BME Fire Safety Visiting Project

This is an exciting new project, providing advice and information to families 'at risk' of fire in their homes. As a Fire Information Worker, you will identify and visit families on low income who are living in poor or unsuitable accommodation. Advice will be offered, working in close co-operation with Fire Community Safety Officers from South Yorkshire Fire and Rescue, and follow up visits will ensure that families are supported to implement a simple action plan.

You will also re-purpose existing written and video resources for key local BME communities, ensuring that fire safety messages are culturally appropriate.
